

Mem. sl. 2.8

November 6, 1978

NOTE FOR: Ms. Clusen
Dr. Liverman

I've been getting informal signals for some time that not all is well in the Pacific managerially. The focus of difficulty clearly seems to be in Washington, and I attach a thoughtful letter from Bill Bair, chairman of our (your) advisory group. I'd like to discuss.

Hal Hollister, Acting Director
Division of Operational and
Environmental Safety
